RE: Notification Date: September 30, 2013
Pin Punch Date: October 22, 2013
Product Name: Kem-Tek Algaecide
EPA Registration Number: 7616-73

Dear Ms. Griffin:

This acknowledges receipt of your Notification submitted in accordance with the provisions of PR Notice 98-10 under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)9.

Proposed Notification

The addition of graphics, label claims, and optional language accepted on other KIK labels.

General Comment

Based on a review of the material submitted, the notification is acceptable.

Should you have any questions or comments concerning this letter, please contact Tom Luminello at (703) 308-8075.

Sincerely,

for Jacqueline Hardy
Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (7510 P)

PRECAUTIONARY STATEMENTS:

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Harmful if swallowed or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

[For containers smaller than 5 gallons use the following:]

ENVIRONMENTAL HAZARDS

This product is toxic to fish, aquatic organisms, and clams.

[In accordance with PR notice 95-1, use the following complete Environmental Hazards statement for containers 5 gallons and larger]

ENVIRONMENTAL HAZARDS

This product is toxic to fish, aquatic organisms, and clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

FIRST AID: Call a poison control center [(1-800-222-1222)] [(1-866-366-5048)] or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. **If in Eyes:** Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If swallowed:** Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth, if possible.

Have the product container or label with you when calling poison control center or doctor, or going for treatment.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

[First Aid may be in table form]

- Use Weekly for Prevention

†Pool may be used in 15 minutes after adding this product only when chlorine level is at or below 3 ppm.

[The presence of algae in swimming pools is objectionable and can be difficult to remove. KEM TEK™ ALGAECIDE helps prevent the growth of chlorine-resistant algae, [(such as mustard and black algae)]. It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.]

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

[Use one or more of the following sets of directions]

Freshly filled And/Or Algae-Free Swimming Pools: Add 8 ounces of KEM TEK™ ALGAECIDE per 10,000 gallons [of] pool water. Add 2 to 4 ounces (per 10,000 gallons) weekly as a maintenance dose to prevent algae growth through the swimming season.

[In the text "this product" or alternate brand name may be substituted for Kem Tek Algaecide name]
[[Information in brackets] is optional or instructional; italics in brackets indicate instructions not part of labeling.]

Visible Algae Growth: Super-chlorinate with a fast-acting, [unstabilized] chlorinating product (such as Shock Quick™) to a chlorine reading of 5 ppm. Do not use the pool until the chlorine residual has dropped to 3 ppm. Remove all debris by vacuuming or sweeping and filtering. In order to aid in the removal of the fine particles resulting from the affected algae, use KEM TEK™ ULTRA CLARIFIER. Add an initial dose of 16 ounces of KEM TEK™ ALGAECIDE per 10,000 gallons of water to rid the water of the remaining chlorine-resistant algae. Thereafter, add 2 to 4 ounces (per 10,000 gallons) weekly during swimming season to prevent regrowth of algae.

NOTE: In order to ensure maximum effectiveness of KEM TEK™ ALGAECIDE (and all other swimming pool chemicals), always maintain pH at 7.2 to 7.6 and a free-chlorine residual of 1 to 2 ppm. Measure by using a reliable test kit.

[Reader's Note: Throughout this label, product names for other similar products (i.e., pH adjusters, stabilizers, chlorinators etc.) may be substituted as appropriate. All oz. may be expressed as fl. oz. or oz.] Other appropriate ounce products and corresponding gallons of water treated may be substituted on label.

STORAGE AND DISPOSAL:

STORAGE: Keep container closed when not in use. Store in cool, dry, well ventilated area away from heat or open flame. **CONTAINER DISPOSAL: IF EMPTY:** Nonrefillable container. Do not reuse or refill this container. Place in trash [collection] or offer for recycling if available. **IF PARTLY FILLED:** Call your local solid waste agency for disposal instruction. Never place unused product down any indoor or outdoor drain.
